9:00pm - 10:00pm	Group Time

Sunday, Nov. 19

9:30am - 11:00am	Combined Main Session
------------------	-----------------------

THE HUB

ADULT LEADERS, THIS ROOM IS FOR YOU! Group leaders will meet here for an orientation on Saturday morning. You will find this to be your central location. If you have any questions about the conference at any time, need assistance resolving issues, or just need some coffee to re-energize, then come to this room! This Hub is your "go to" place.

BUILDING PROJECT

SICOM has been building walls since 1998 and sending them all over the country to create sheds for disaster victims. We partner with CrossRoads Missions; they do a wonderful job at organizing students into small groups to build a wall section that each student gets to personalize by writing blessings, prayers, and scriptures on the wall studs. Part of your students' registration helps pay for this project.

PRAYER ENCOUNTERS

In 1999, a group of youth ministers created the idea of a prayer encounter. This time is for a youth group and a missionary to simply get to know each other. During the prayer time the missionaries will be able to tell their stories and missions journey, and the kids will have an opportunity to ask questions. The missionary will pray for your kids then your kids will pray for the needs of the missionary.

MAIN SESSIONS

There are 4 main sessions stacked with incredible speakers and powerful worship time. Our goal in the main sessions is to set the group leaders up to hit the home run. We understand that you are the ones going home with the kids; you need to be the "hero" from conference. We will provide you with small group guides to help discussion time after each session.

WORKSHOPS

We're excited to be offering a SICOM track of workshops this year! These classes are for parents and youth leaders/sponsors. Topics such as adolescent brain development, how to successfully start or restart your youth ministry, and how to plan short term trips for teens are some of the subjects we will discuss. These workshops will be located in the HUB.

MEAL MAKING

In 2007, SICOM began using students to help make the world's most nutritious meal for a child. Your students will not only be part of an assembly line to make thousands of meals for children in need, but they will also learn about world hunger and the impact that it has on the quality of life in a third world country. Many children will receive a much needed nutritious meal because of the students' work and the monies they pay toward their registration.

SCAVENGER HUNT

The exhibit hall is an incredible room full of all kinds of mission work going on across the world. We created the "Insta Hunt" scavenger hunt idea as a way to have students mingling in a no pressure environment with those from other cultures. Youth Hope helps us lead this activity.

INTO THE FUTURE

We're excited to offer a new activity for youth groups this year! "Into the Future" is a time for students to talk with and learn about the many faith-based college options that are available to them. We want to help set our kids up for success and give them some time to ask questions, mingle, play games, and see what the different bible colleges have to offer.
